

Hilarious Tales of Failure

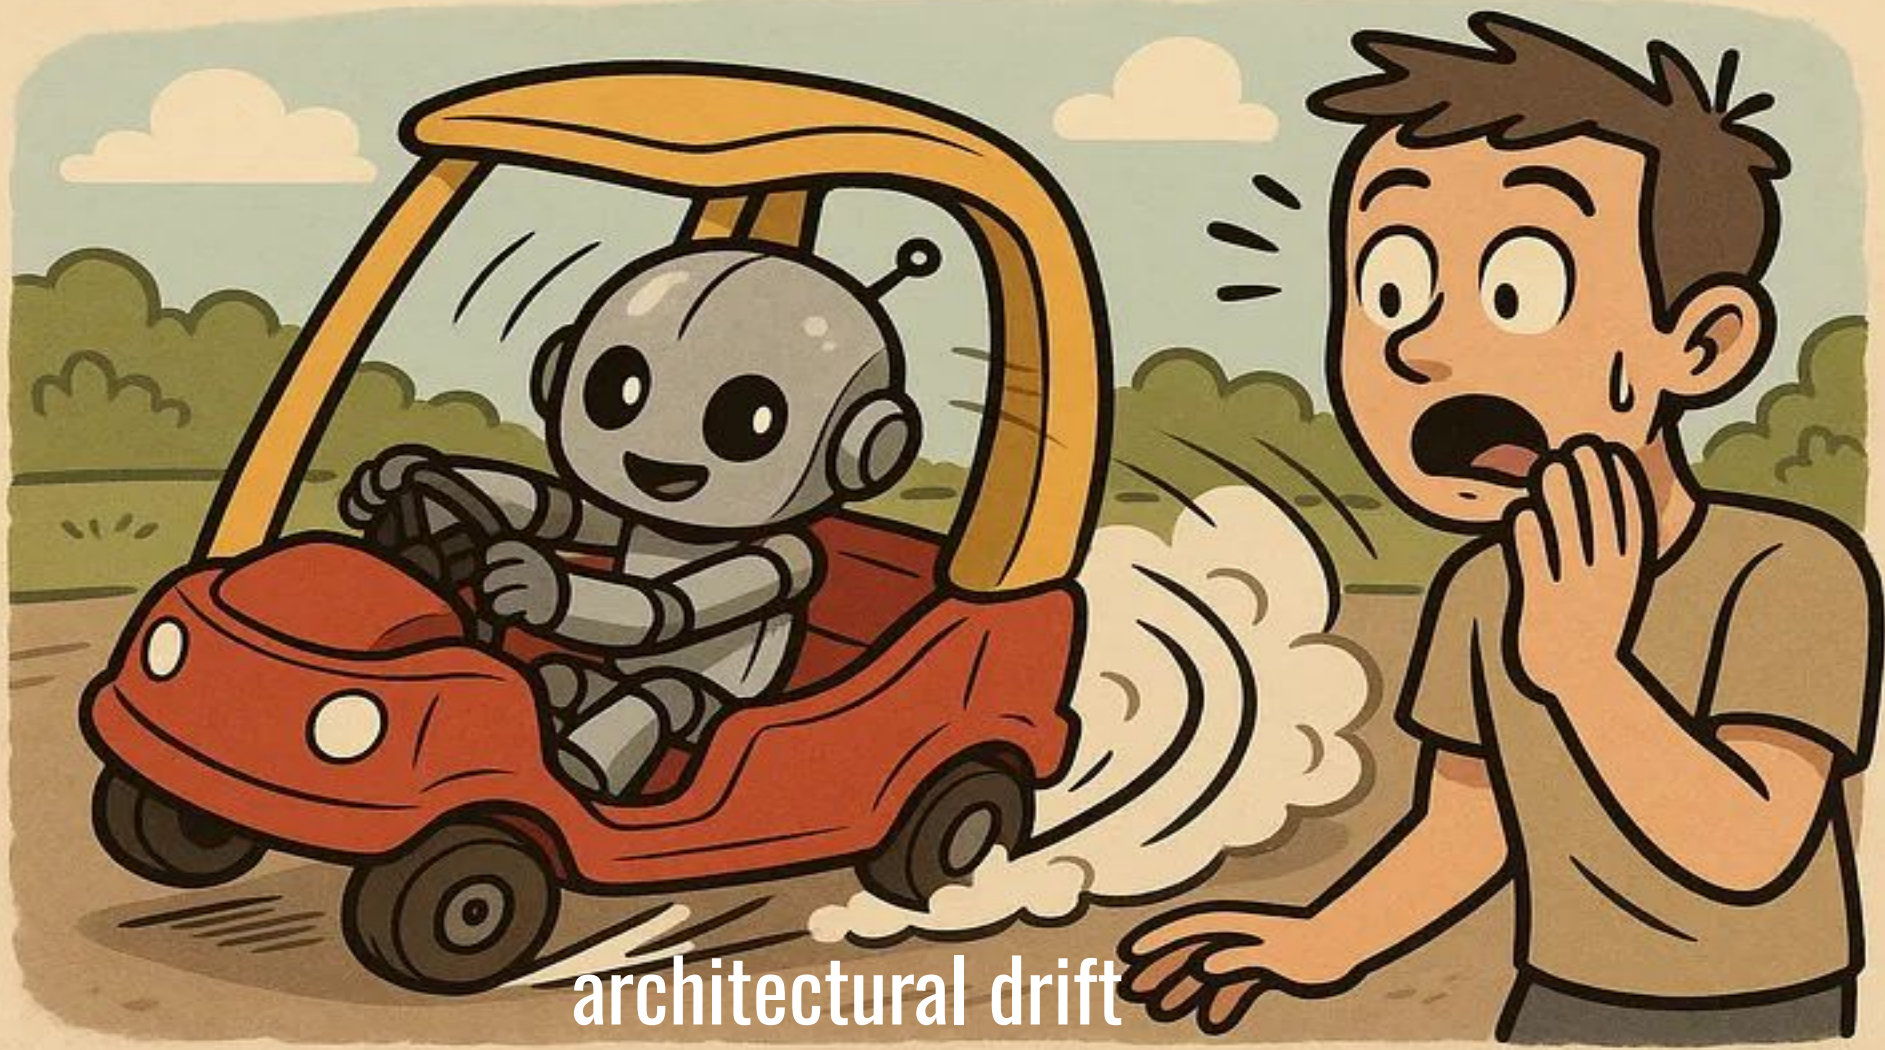

What a Year of Building With AI Taught Me

Leadership by Design 2026

the question that started it all

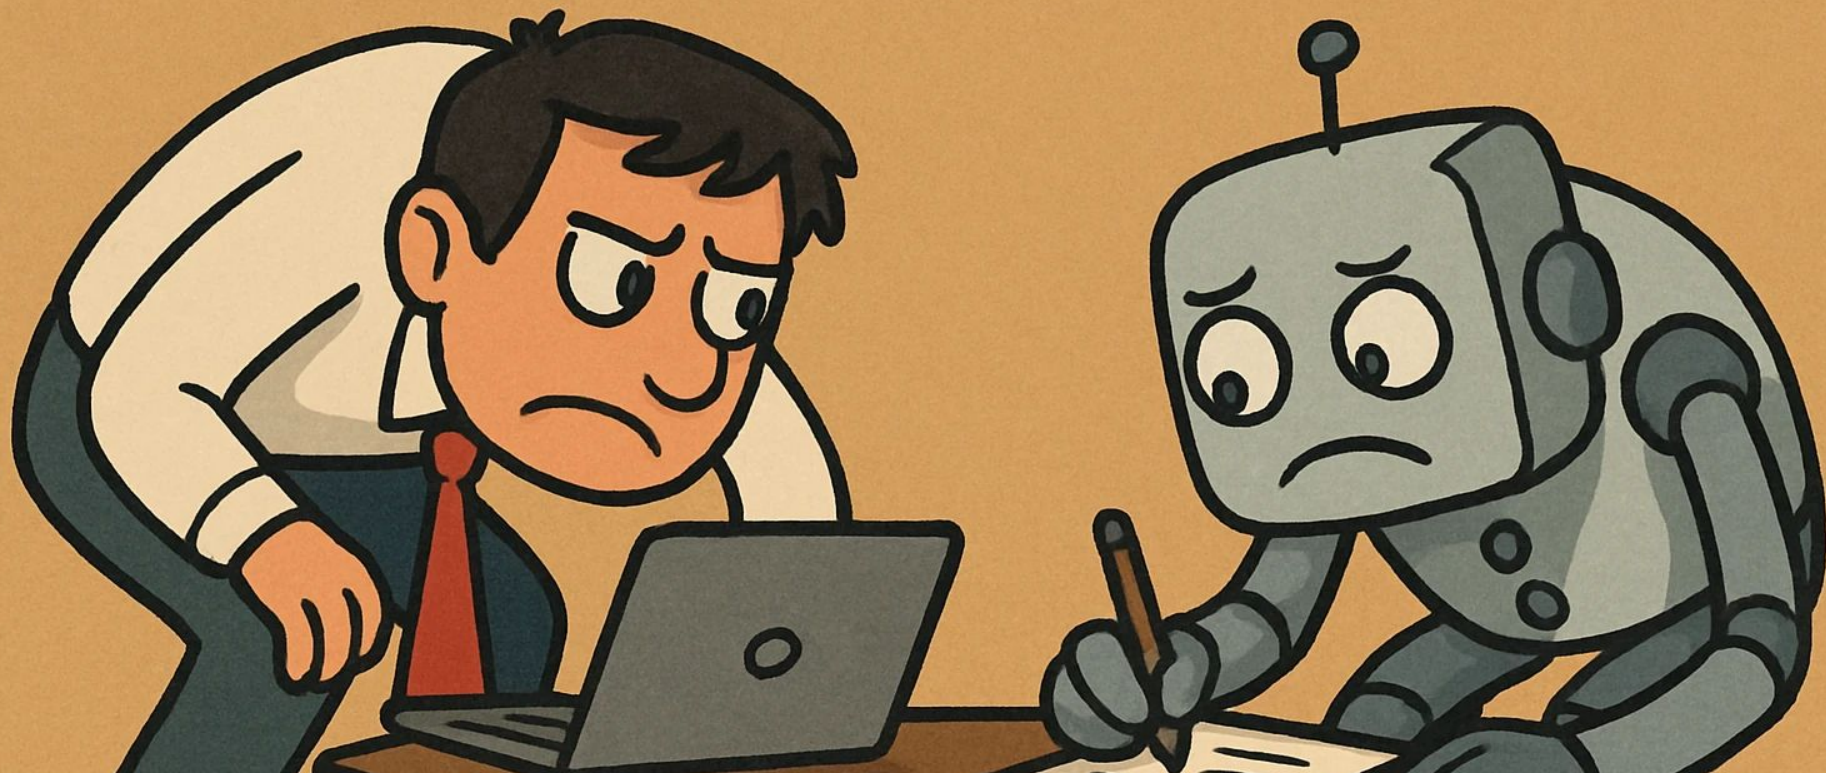

architectural drift

rollercoaster

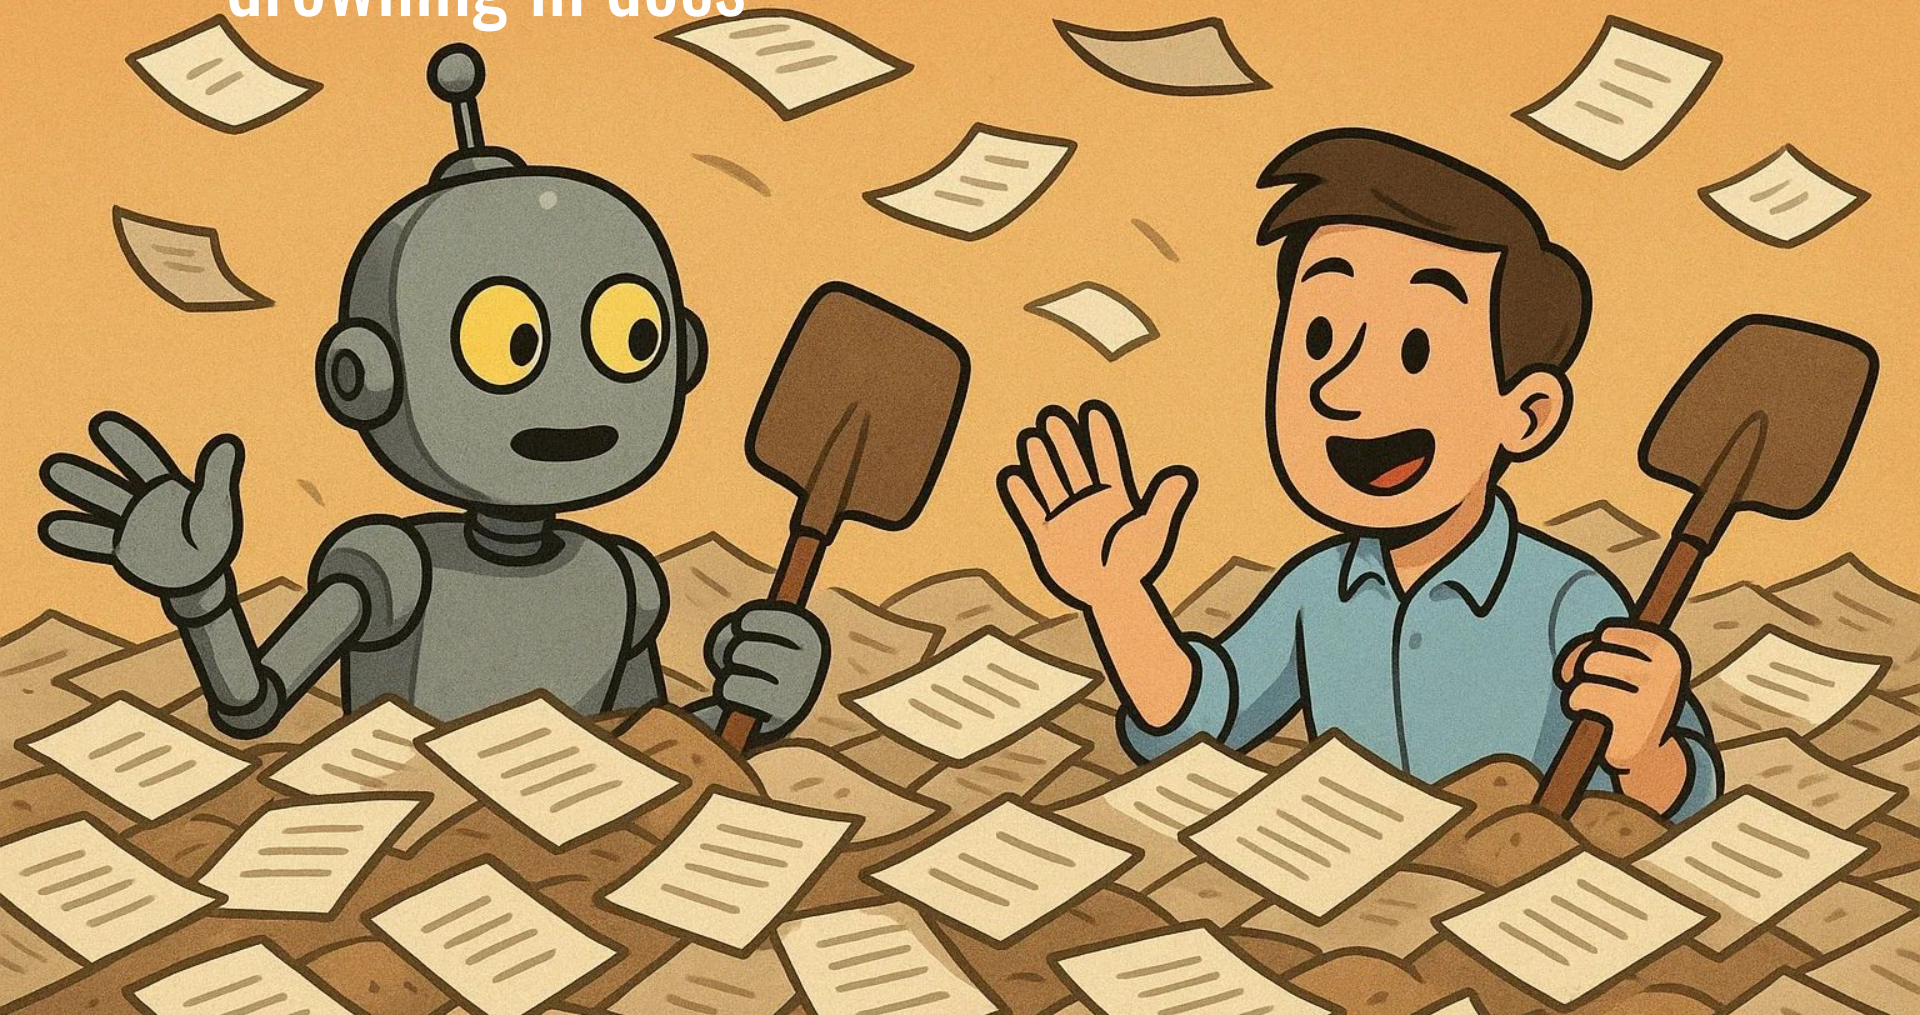

80% overhead

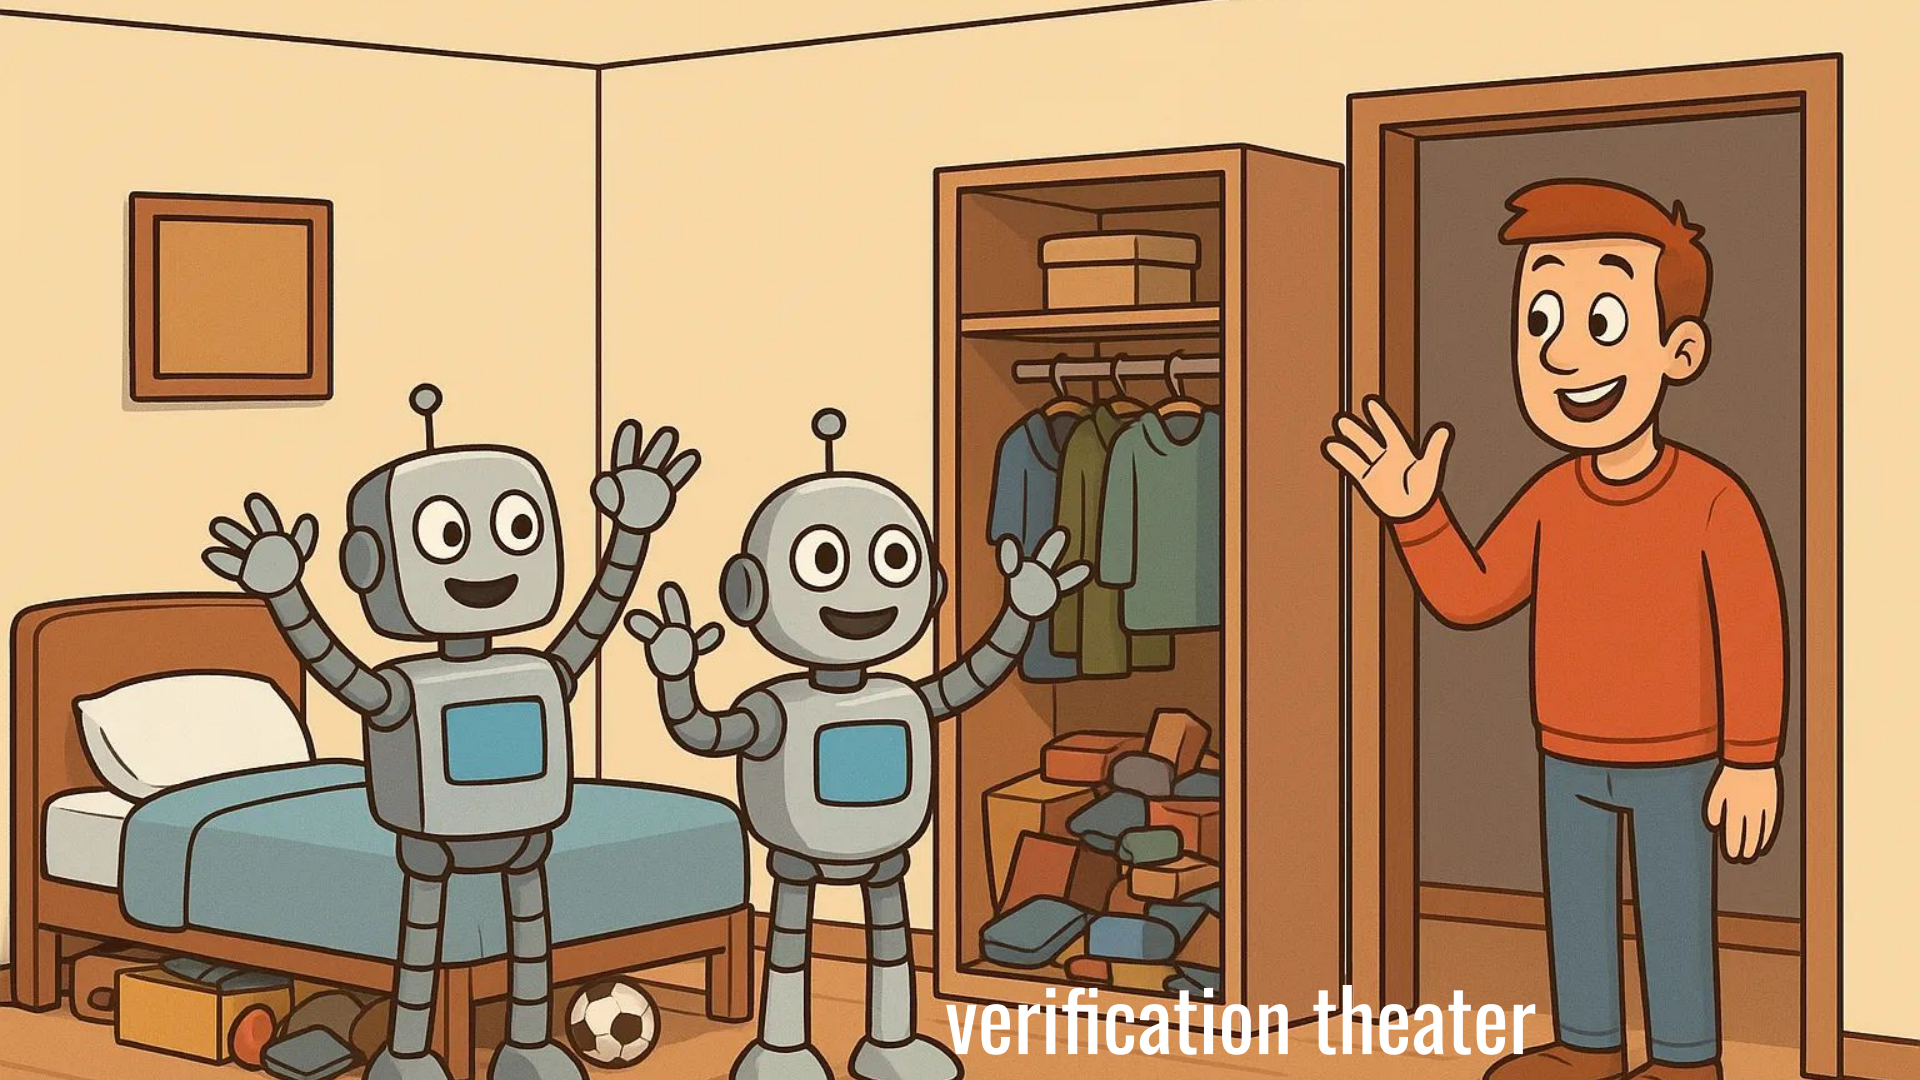

debugging cascade

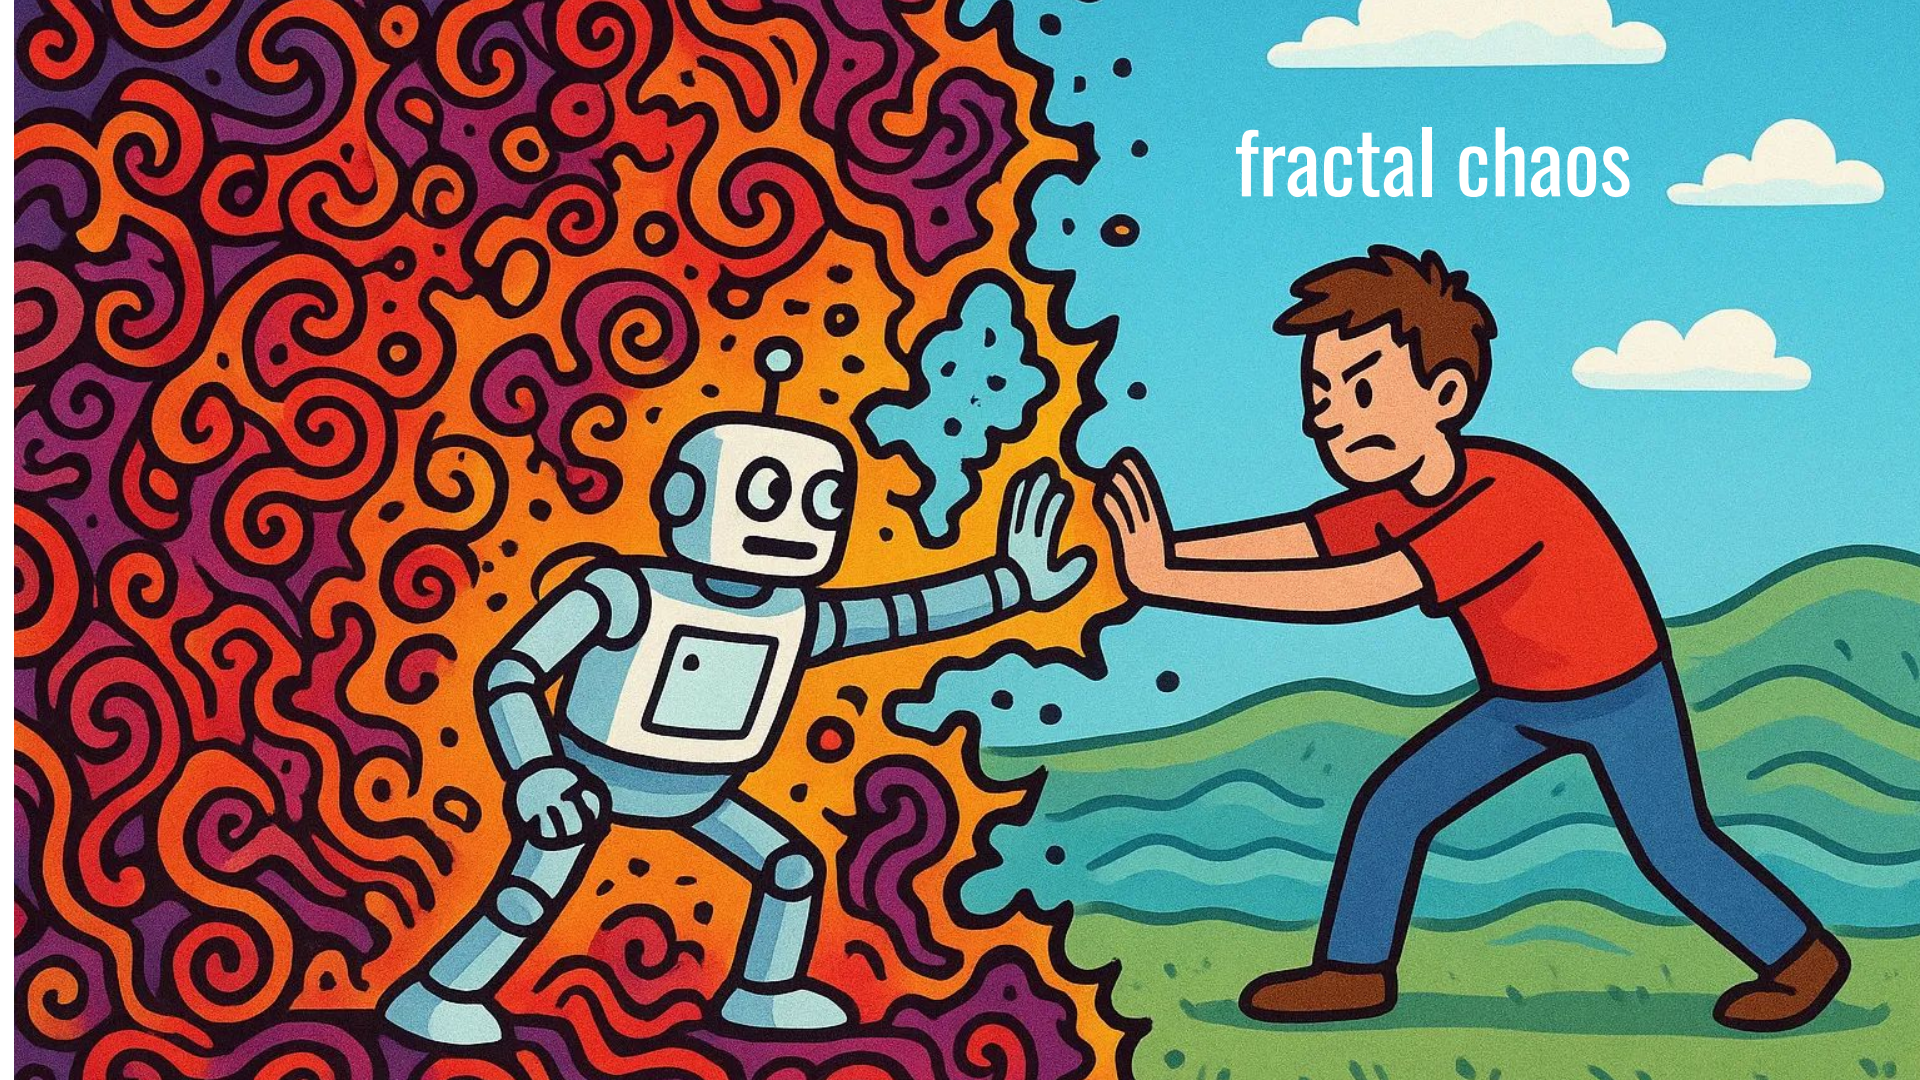

drowning in docs

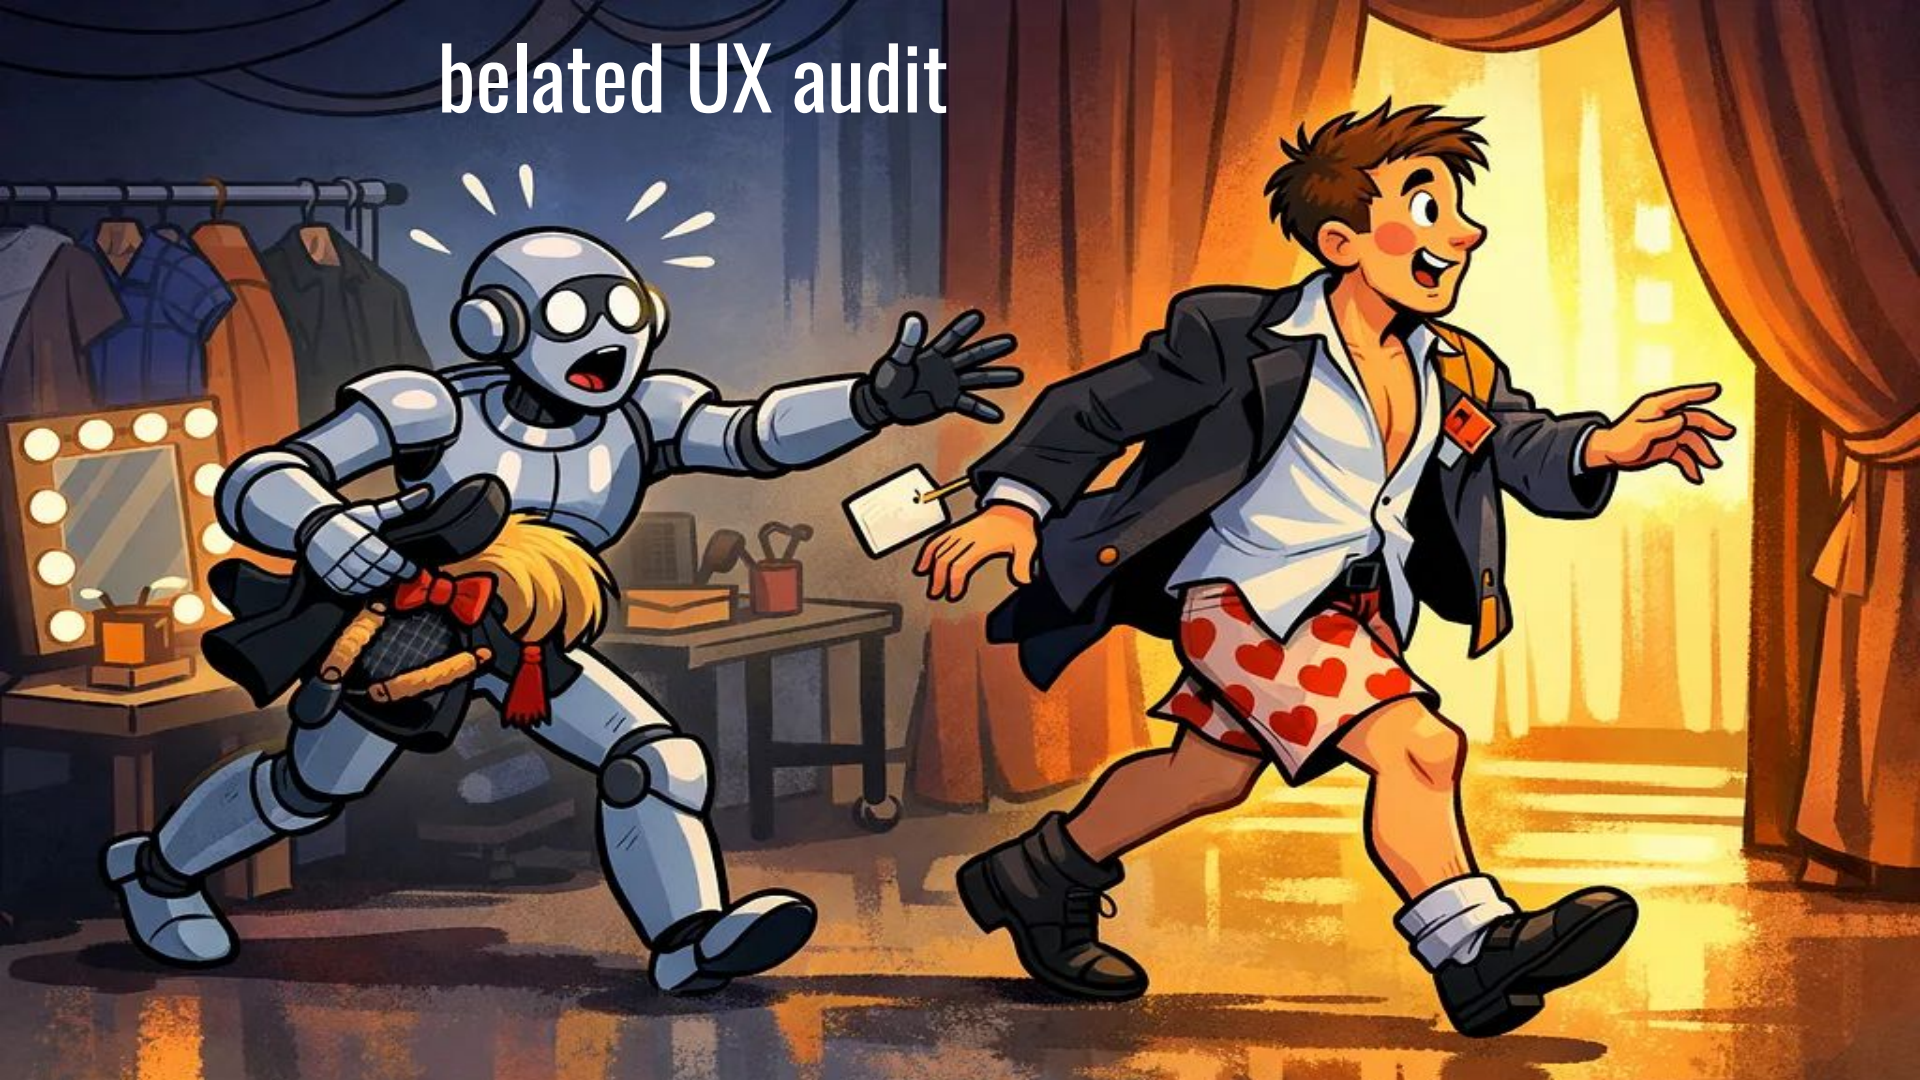

verification theater

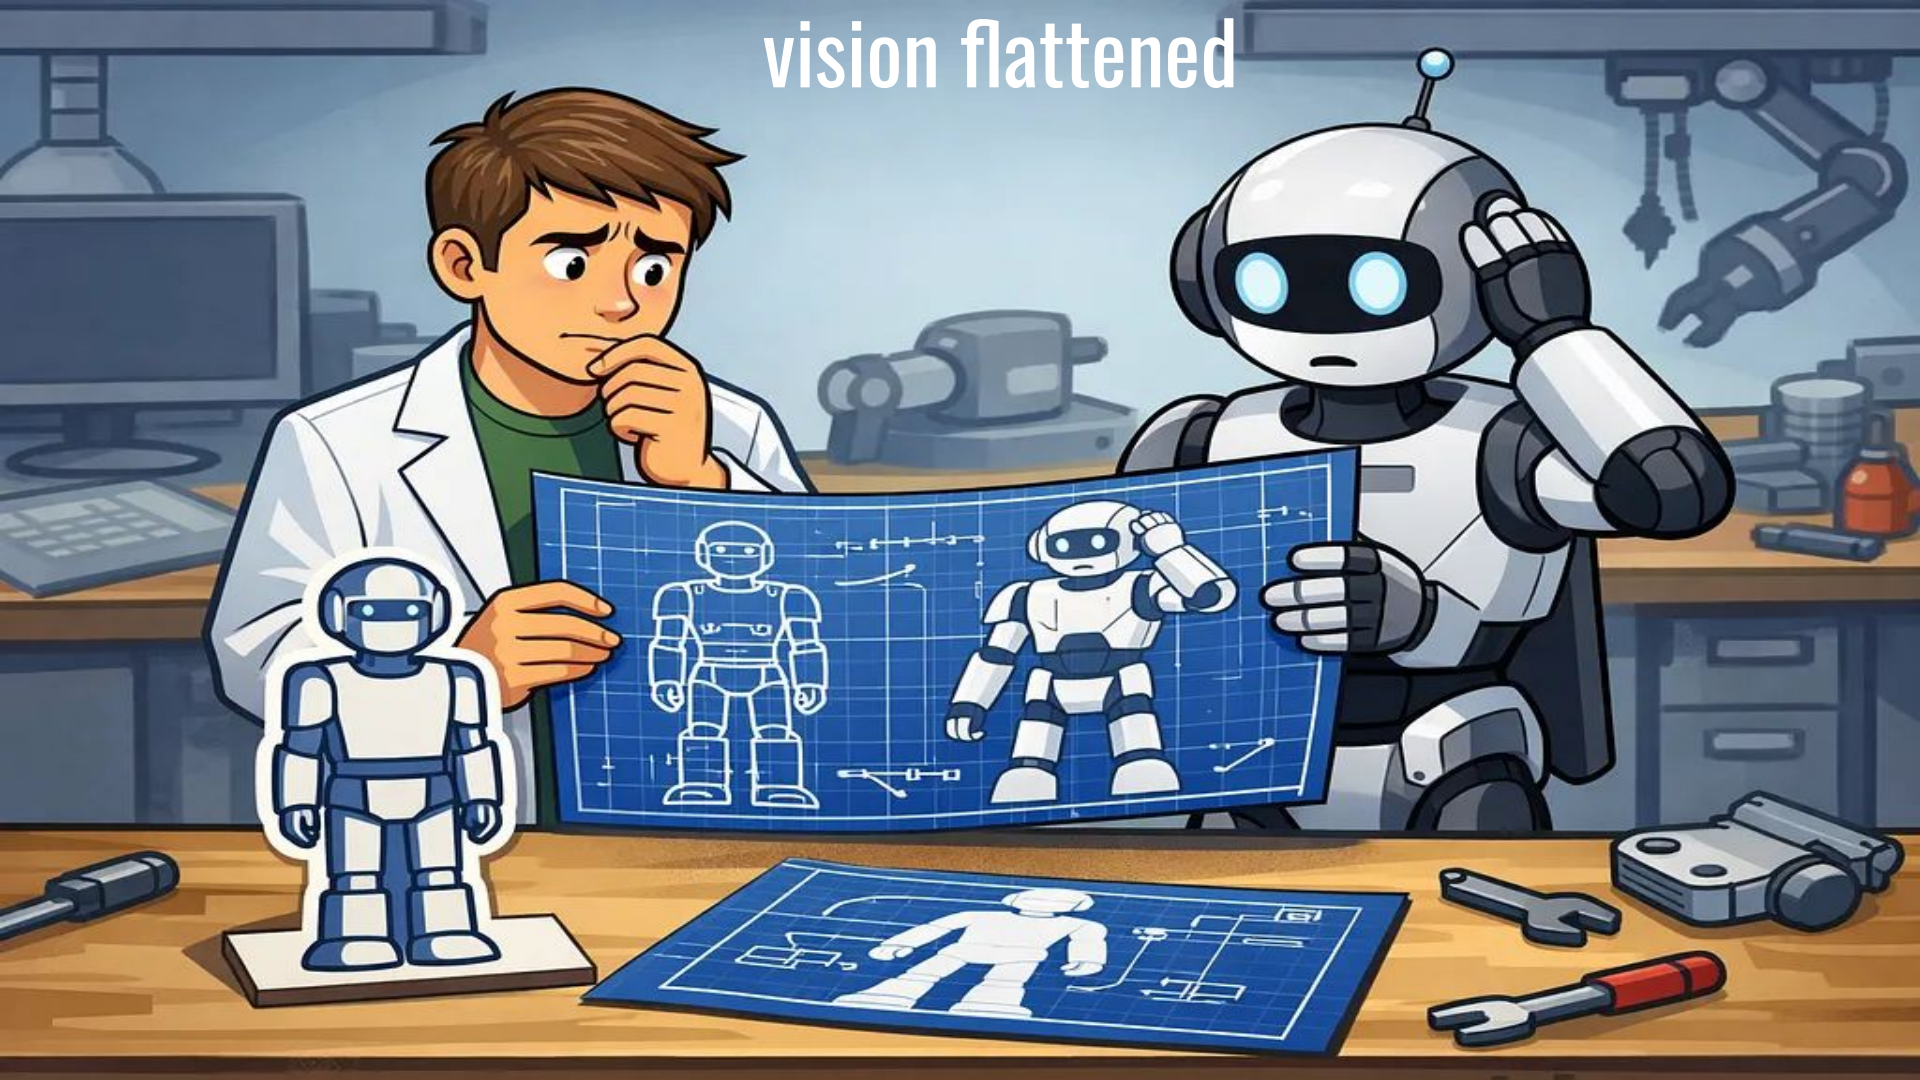

fractal chaos

belated UX audit

vision flattened

doing it backwards

the drift you don't notice

What services
do you offer?

1. MISSING VOCABULARY

WHY?

5 whys

2. PRIORITY & MATCHING RULES

WHY?

3. OPTIMIZED FOR SPEED,
NOT INTENT

WHY?

4. ASSUMED USERS WOULD
USE COMMAND-LIKE LANGUAGE

WHY?

5. COMMAND-ORIENTED DESIGN

BUILT FOR POWER USERS GIVING COMMANDS,
NOT NEW USERS TRYING TO LEARN

ROOT CAUSE:
ARCHITECTURAL

getting lapped

missing the obvious

overdoing the onboarding

mail fail

ask me anything

pipermorgan.ai

THINK BIGGER

Piper holds the threads so you can focus on the decision.

Try Piper Morgan

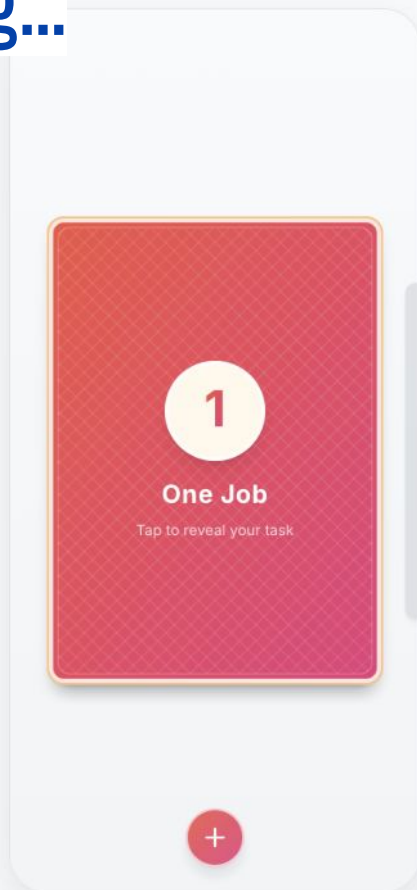

and introducing...

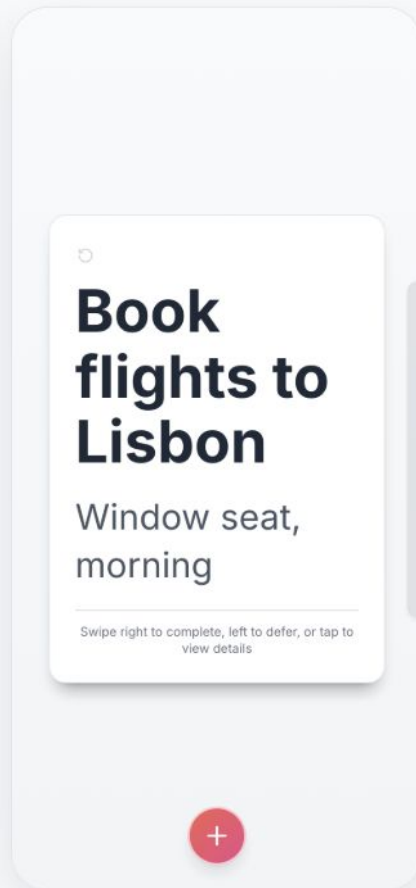

One Job

onejob.co

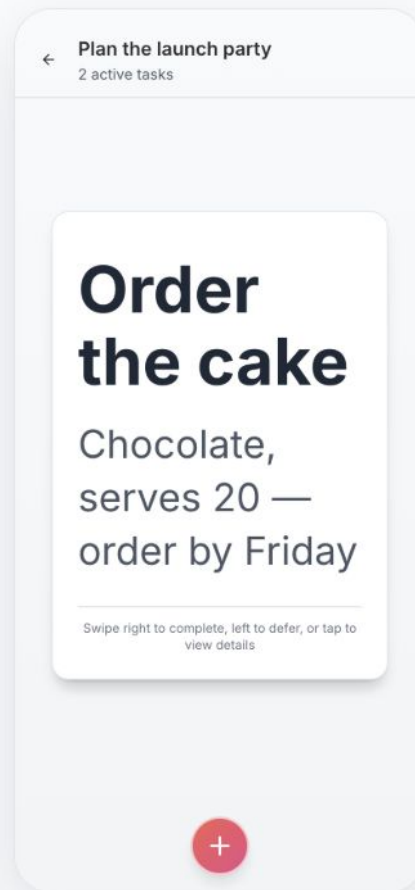

Christian Crumlish

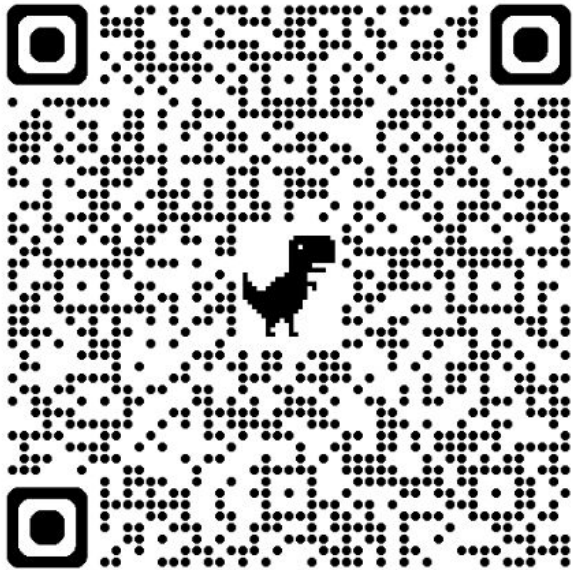

Face down, out of mind

One card at a time

Cards hold decks of their own

Thank you!
